

MEGHA DHARGALKAR

Project & Operations Manager | Process Infrastructure | Cross-functional Delivery | End-to-End Program Delivery
meghaprdhargalkar@gmail.com | +91 97645 39747 | Hyderabad, India (Open to relocation) | [linkedin.com/in/megha-pdhargalkar](https://www.linkedin.com/in/megha-pdhargalkar)

SUMMARY

Project and operations professional with 4+ years managing end-to-end delivery across complex, multi-stream environments - from intake and execution through reconciliation and close. Track record of building operational infrastructure from scratch - owning commitment intake through execution, quality assurance, financial reconciliation, and post-delivery close across \$54M+ in managed portfolios. Designed and led a structured 3-phase training program for associates at two seniority levels; built systems adopted at enterprise level with senior leadership approval. Averaged a 4.06/5.0 performance rating across five consecutive assessed quarters, with eleven documented recognitions from VP-level client stakeholders and senior leadership across two organizations - cited for financial accuracy, system ownership, and delivery reliability. Experienced in executive-level presentation development, data analysis, and ad hoc program coordination across remote and distributed teams -supporting business continuity across complex, multi-stakeholder environments.

CORE COMPETENCIES

Project Lifecycle Management (Initiation → Close) · Stakeholder Management · Stakeholder Coordination & Communication · Risk Identification & Escalation · Scope & Timeline Management · Scheduling & Deadline Management · Process Documentation & SOP Design · Cross-functional Delivery · Quality Assurance & Control Systems · Budget Tracking & Financial Oversight · Status Reporting & Executive Communication · Deliverable & Milestone Tracking · Remote & Distributed Team Coordination · Data Analysis & Trend Identification · AI-Augmented Workflow Engineering

WORK EXPERIENCE

Associate II | Subject Matter Expert (SME), Mediamint *Apr 2024 – Present*

Account: Linear TV Operations

Feb 2025 – Present

Media investment operations firm managing partner commitments, order lifecycle, financial reconciliation, and campaign delivery across a \$54M+ portfolio.

- **Project Lifecycle Ownership:** Managed end-to-end project lifecycle for 32+ concurrent media orders in 2026 -tracking milestones from intake and contract execution through financial reconciliation and delivery close, coordinating deliverables and dependencies across 13 partner relationships and 12 active client accounts, ensuring deadlines were met across all workstreams within a combined portfolio of \$54M+ in commitments.
- **Portfolio Scale & Delivery:** Absorbed 117% growth in partner relationships (6 → 13) and 33% growth in client accounts (9 → 12) -scaling combined portfolio value from \$40M to \$54M+ -coordinating resource allocation and delivery across remote and distributed teams within a 5-person core operations team, without headcount additions, building and maintaining the operational infrastructure that enabled each new partner and account to be onboarded and serviced without delivery disruption.
- **Financial QA & Risk Escalation:** Identified and escalated \$21,398 in financial discrepancies across two documented instances before client distribution -proactively flagging bottlenecks and resolving issues in contexts not nominally focused on QA, preventing data-integrity problems from reaching active client accounts in both cases.
- **Training Program Design & Delivery:** Designed and executed a 1,678-minute, 3-phase structured training program for two associates at different seniority levels - building a 5-dimension scoring rubric (Understanding, Accuracy, TAT Adherence, Execution Quality, Overall), tracking completion at timestamp level, and submitting calibrated written evaluations differentiated by trainee to Associate Director level.
- **Process Infrastructure Built:** Built a multi-tab operational tracking system from scratch -generating management information and maintaining project transparency across a 5-person operations team; engineered subsequent upgrades including a process rules documentation tab, action item and follow-up summary tracking, and a data-mismatch automation that triggers auto-alerts -scaled progressively to match \$54M+ portfolio growth and in daily active use across operations and client-facing teams.

- **Innovation & Stakeholder Buy-in:** Built a centralized partner resource hub - consolidating partner directory, creative specs, FAQs, and campaign lifecycle workflows for 13 partner relationships - selected Top 3 of ~17 entries at an internal company-wide innovation challenge; approved by senior leadership for enterprise-wide production rollout.
- **Quality Systems:** Designed and deployed Order and Invoice Quality Checklists (Google Forms) - converting a manual, inconsistent QA process into a standardized, repeatable quality system, adopted across a 5-person team processing orders and invoices across thirteen partner relationships and twelve client accounts.
- **Performance:** Averaged a performance rating of 4.06/5.0 across five consecutive assessed quarters (peak 4.40) - identifying performance trends and consistently achieving top-tier utilisation of 95.74% and 99.84% in Q1–Q2 2026; received eleven documented recognitions from VP-level client stakeholders and senior leadership across two organisations.

Account: Digital Ad Operations

Apr 2024 – Jan 2025

AdOps campaign coordination, QA, and trafficking request management for a financial services advertiser.

- Executed daily campaign operations managing a structured request queue of 8–15+ trafficking requests per day - maintaining compliance checklists, tracking utilisation against delivery targets, and sustaining ~95% QA accuracy with zero documented errors across the 9-month engagement.
- Expanded account responsibility from 1 to 3 advertiser verticals within the engagement period on the basis of performance - operating within a 10+ person team while sustaining a performance rating progression from 3.20 to 4.30, a 34% improvement across the same period.

Senior Digital Account Strategist, MarketStar India – Regalix (Google Partner)

Mar 2022 – Apr 2024

Google Ads campaign strategy and performance management on behalf of Google's advertiser clients.

- Exceeded advertiser acquisition targets in three consecutive performance periods: 114% of target (Q3 2022), 108.5% (Q4 2022), and 136% (Q1 2023) - highest across all reviewed quarters.
- Maintained QA scores of 89–94% across all reviewed quarters; achieved 100% policy adherence compliance for all managed accounts every quarter without exception.
- Assigned across all three account tiers within a 30+ person team - operating across low-spend (220-account pool), high-spend (120-account pool), and agency (330-account pool) portfolios - in a function where strategists are typically maintained within a single tier; cross-tier deployment assigned on the basis of consistent delivery performance.
- Managed multi-tier stakeholder relationships across agency and direct client layers - overseeing Google Ads campaigns across Search, Display, and Video formats for accounts with \$30,000+ monthly budgets, sustaining overperformance across 3 consecutive assessed quarters.

Career Break Jun 2020 – Feb 2022

Sector-wide employment disruption during the COVID-19 global pandemic; completed Google Ads certification suite (Search, Video, and Performance Max) during this period.

Customer Operations | Acting Mishandled Baggage Specialist, IndiGo – InterGlobe Aviation Ltd May 2018 – Jun 2020

- Selected as the sole Acting Specialist promotion within a 30+ person customer operations team within 18 months - managing 30–50+ cases per shift, leading a process redesign that standardized case categorization, and consistently delivering customer satisfaction outcomes under high-volume airport conditions.

SKILLS & TOOLS

Project & Operations: Project Lifecycle Management · Stakeholder Management · Stakeholder Coordination · Cross-functional Delivery · Risk Escalation & Mitigation · Status Reporting · Scope & Timeline Management · Scheduling · Deadline Management · SOP Design · Deliverable Tracking · Milestone Management · Remote & Distributed Team Coordination · Ad Hoc Program Coordination

Platforms & Tools: Notion · Airtable · Workfront · Asana · ClickUp · Trello · Microsoft 365 · Google Workspace

Analytics: Microsoft Excel (Advanced - SUMIFS, pivot tables, dashboard design, formula architecture) Google Looker Studio

AI & Automation: Claude AI (prompt engineering, workflow automation, skill library design) · ChatGPT

EDUCATION

Bachelor of Science – Zoology | Parvatibai Chowgule College of Arts & Science, Goa

2014 – 2017

Diploma in Aviation, Hospitality & Travel Management | Frankfinn Institute

2017 – 2018
